My Story

After a successful career leading sales and marketing departments, I decided to make a change in 2020 and follow a passion of buying and selling homes. With this in mind I launched Coyle Dowling Real Estate, powered by the world's largest property company Keller Williams.

During the last 20 years I have bought & sold property and love everything about the process, from staging a home to the negotiation of the deal. Deciding to limit my client base allows me to put the customer first & provide a hands-on service for my clients in the Ealing community.

Living with my partner on Mount Avenue, we've realised the importance of community & having a career that gives you job satisfaction. One of the main benefits working with an independent agent like ourselves, is that we have the luxury to spend more time with clients, to listen and understand their requirements which allows me to design a service around their property needs.

If you or anyone you know are considering buying or selling, or just keen to get an updated market comparison, allow me to be the Estate Agent that you can rely on.

I hope you find this guide useful as it lists a small selection of the amazing Ealing based independent businesses in our community.

Regards

Anthony Coyle-Dowling
